Vol. 67 • No 6 • November 2008

The Trend

Natural Rubber (NR) production in the country during September 2008 increased to 80,500 tonnes compared to 65,275 tonnes during September 2007. The cumulative production during the first half of the year 2007-08 was 395,865 tonnes compared to 309,345 tonnes during the corresponding period of the previous year registering a growth of 28.0% due to favourable weather conditions and as a reflection of the low output attained during the same period of the previous year. The production provisionally estimated for October'08 is 84,000 tonnes.

Consumption of NR by the rubber goods manufacturing industry in the country during September'08 was 75,860 tonnes as against 75,850 tonnes during August'08. The total consumption of NR by the rubber goods manufacturing industry during April'08 to September'08 was 444,550

tonnes as against 422,505 tonnes recording a growth of 5.2%. The growth in consumption by the auto tyre sector during the first half of the year 2007-08 was 7.8% compared to 6.5% achieved during the same period of the previous year, whereas the non-tyre sector showed a growth of 1.8% as against 2.1% attained during the same period of the previous year. The consumption provisionally estimated for October'08 is 76,000 tonnes.

The import of NR during September'08 was 12,717 tonnes compared to 9,093 tonnes during September'07. The cumulative import of NR during the first six months was 40,438 tonnes as against 44,247 tonnes during the corresponding period of the previous year. Export of NR during September'08 was 1,995 tonnes as against 1,166 tonnes during September'07. The cumulative export

of NR during April'08 to September'08 increased to 30,434 tonnes compared to 17,398 tonnes during the same period of the previous year. Stock of NR at the end September'08 was 130,910 tonnes.

Production of Synthetic Rubber (SR) during September'08 decreased to 7,500 tonnes from 7,905 tonnes during August'08. Cumulative production of SR during the first half of the year was 51,256 tonnes compared to 51,243 tonnes during the same period of the previous year. Consumption of SR slightly decreased to 24,210 tonnes during September'08 as against 24,310 tonnes during August'08. The total consumption of SR during the first six months of the current fiscal year increased to 148,565 tonnes as compared to 143,145 tonnes during the corresponding period of the previous year.
